

Calculate the volume

Write the volume of each 3D shape below

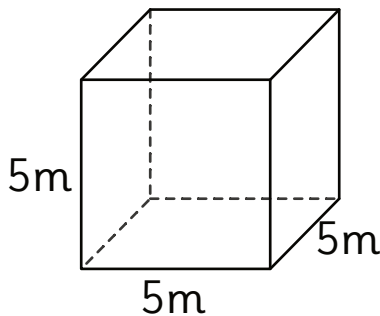

Answer sheet

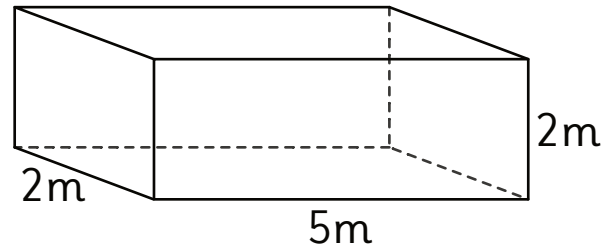

$$\text{volume} = 4 \times 7 \times 4 = 112\text{m}^3$$

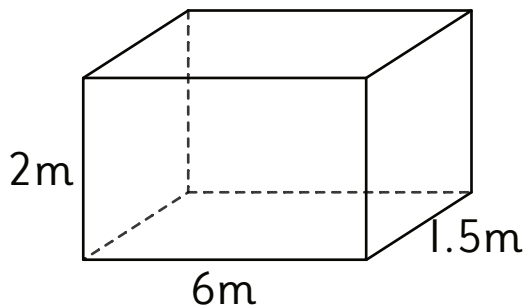

$$\text{volume} = 10 \times 14 \times 6 = 840\text{m}^3$$

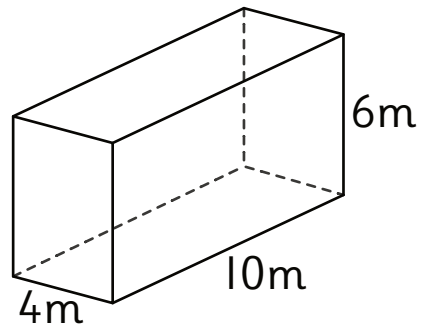

$$\text{volume} = 5 \times 5 \times 5 = 125\text{m}^3$$

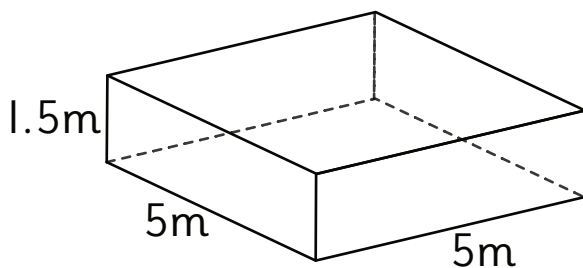

$$\text{volume} = 5 \times 2 \times 2 = 20\text{m}^3$$

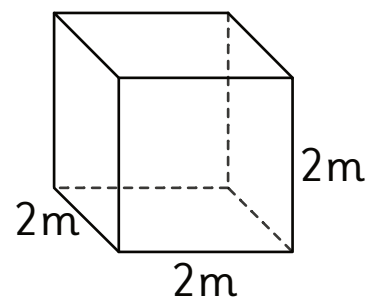

$$\text{volume} = 6 \times 1.5 \times 2 = 18\text{m}^3$$

$$\text{volume} = 4 \times 10 \times 6 = 240\text{m}^3$$

$$\text{volume} = 5 \times 5 \times 1.5 = 37.5\text{m}^3$$

$$\text{volume} = 2 \times 2 \times 2 = 8\text{m}^3$$
