

Name: _____ Date: _____

Converting years into months

Use the table to answer questions about how long each family has lived in their house.

Family	Time they have lived in their homes	
	years and months	total number of months
The Clarks	4 years, 2 months	
The Sears	7 years, 9 months	
The Coles	12 years, 1 month	
The Brooks	11 years, 5 months	
The Khans	9 years, 10 months	

1. Fill in the table to convert the years and months, into **months**.

2. How much longer have the Coles lived in their house than the Brooks family have in theirs? _____

3. For how long in **years and months** have the Khans and the Brooks lived at their houses in total?

4. Write the names in order of time they have lived in their homes. (Longest first.) _____
