Correspondence word problems

Write your answer in the space next to each question

1. I bought boxes of cup cakes. There are 6 iced cup cakes and 8 chocolate cup cakes in each box. There are enough for 16 people to each have one chocolate cupcake. How many iced cup cakes will be left?

2. A teacher needs new marker pens for school. Each set she buys has 4 black pens and 9 coloured pens. She needs 8 black pens so how many coloured pens will she have?

3. For our pizza party we bought boxes of pizzas, each with 5 cheese pizzas and 3 ham pizzas. We have enough for 15 people to have ham pizza. How many can have cheese?

4. A teacher bought new star stickers. Each pack has 6 gold stickers and 9 silver ones. She needed 27 silver stickers, so how many gold stars does she now have?

5. I am knitting a jumper. Each pack of wool has 4 white and 5 blue balls of wool. I need 25 blue balls, so how many white ones will be left over?
