

Find all the prime numbers to 100

Answer sheet

1. Cross out the number 1 because it cannot be prime.
2. Do **not** cross out the first prime numbers 2, 3, 5 and 7.
3. Cross out the multiples of 2.
4. Cross out the multiples of 3, 5 and 7 which are not crossed out.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

The numbers left behind are prime numbers. Write them out.

2, 3, 5, 7, 11, 13, 17, 19, 23, 29, 31, 37, 41, 43, 47,

53, 59, 61, 67, 71, 73, 79, 83, 89, 97
