

# Rounding numbers

## Answer sheet

1. My mystery number is an even number between **31 and 37**. If I multiply it by 10, then round this answer to the nearest 100, I get 400.

What is the mystery number? 36

2. My mystery number is an odd number between **12 and 18**. If I multiply it by 10, then round this answer to the nearest 100, I get 100.

What is the mystery number? 13

3. Round these decimal numbers as shown

| Decimal | Round to the nearest tenth | Round to the nearest whole number |
|---------|----------------------------|-----------------------------------|
| 57.202  | 57.2                       | 57                                |
| 801.44  | 801.4                      | 801                               |
| 9.783   | 9.8                        | 10                                |
| 259.036 | 259                        | 259                               |
| 68.754  | 68.8                       | 69                                |
