

Ordering and comparing

Answer sheet

Write each set of numbers in order from **smallest** to **largest**

a)

776.301	776.031	7 706.63	76 700.3	76.773
---------	---------	----------	----------	--------

76.773	776.031	776.301	7 706.63	76 700.3
--------	---------	---------	----------	----------

b)

2 844.2	24 882.2	2 884.02	28 428.4	242.808
---------	----------	----------	----------	---------

242.808	2 844.2	2 884.02	24 882.2	28 428.4
---------	---------	----------	----------	----------

Calculate each side of the statement then choose whether to write a $>$, $<$ or $=$ sign in each box

c) 150×2

$<$

 $500 - 175$

d) $262 + 262$

$>$

 $810 \div 90$

e) $-300 + 740$

$<$

 111×4

f) Write this number in figures

Nine million, fifty-three thousand, five hundred and seven

9 053 507

Complete each sequence of numbers

g)

9 409	9 528	9 647	9 766	9 885	10 004
-------	-------	-------	-------	-------	--------

h)

1 320	1 054	788	522	256	-10
-------	-------	-----	-----	-----	-----

Find the missing numbers on the number line
