

# Roman numerals and Arabic numbers

Fill in the missing numbers in the table

## Answer sheet

| Roman numeral | Roman numeral structure | Arabic number |
|---------------|-------------------------|---------------|
| II            | I + I                   | 2             |
| XI            | 10 + I                  | 11            |
| VII           | 5 + I + I               | 7             |
| XVII          | 10 + 5 + I + I          | 17            |
| XIII          | 10 + I + I + I          | 13            |
| III           | I + I + I               | 3             |
| IV            | I before 5              | 4             |
| XX            | 10 + 10                 | 20            |
| IXX           | I before 10 + 10        | 19            |

I = 1

V = 5

X = 10
