Fill in this table by working out the  
mixed numbers and rounding the decimals

| decimal | mixed<br>number    | round to the<br>nearest tenth | round to<br>the nearest<br>whole number |
|---------|--------------------|-------------------------------|-----------------------------------------|
| 42.26   | $42\frac{26}{100}$ |                               |                                         |
| 8.104   |                    |                               |                                         |
| 72.35   |                    |                               |                                         |
| 29.131  |                    |                               |                                         |
| 65.562  |                    |                               |                                         |
| 40.706  |                    |                               |                                         |
| 14.103  |                    |                               |                                         |
| 81.58   |                    |                               |                                         |
