

Name: _____ Date: _____

What type of line is it?

For each of the lines below, write an 'h' in the box if it is horizontal or a 'v' if it is a vertical line

An abstract geometric pattern featuring a light gray background. The design consists of several white squares of varying sizes, some of which are outlined in a thin black border. These squares are scattered across the canvas. Interspersed among the squares are numerous thin, black horizontal and vertical lines of different lengths. Some lines are parallel to the edges of the squares, while others are perpendicular or at diagonal angles, creating a complex, layered visual effect. The overall composition is minimalist and modern.
