

Plotting coordinates in four quadrants

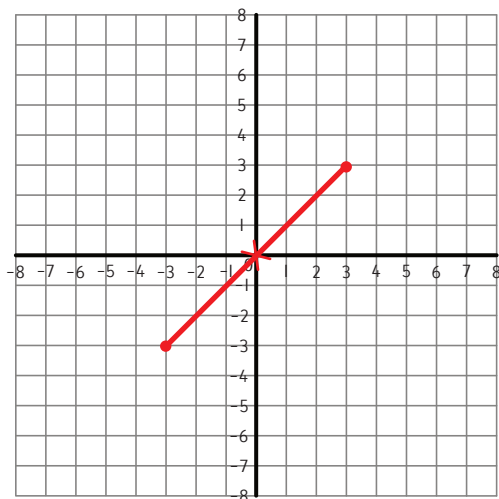

Answer sheet

Plot these points on the grid
 $(-4, -4)$ $(-4, 2)$ $(1, 2)$ $(1, -4)$

Use straight lines to join the points. What shape did you draw?

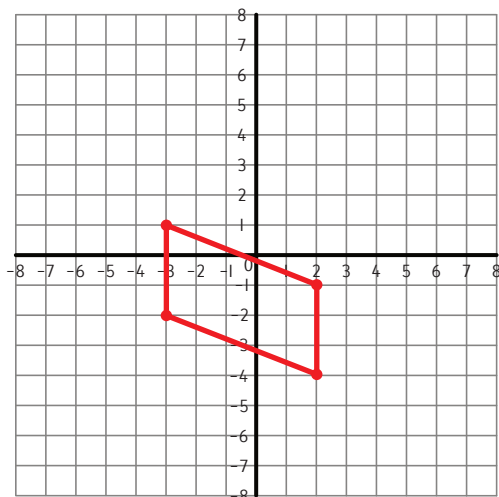

rectangle

Plot these points on the grid
 $(-3, -3)$ $(3, 3)$

Join the points with a straight line. At the midway point of the line put a cross.

The coordinates of the midway point of the line are (0, 0)

Plot these points on the grid
 $(-3, -2)$ $(-3, 1)$ $(2, -1)$ $(2, -4)$

Use straight lines to join the points. What shape did you draw?

parallelogram
