

Name: _____ Date: _____

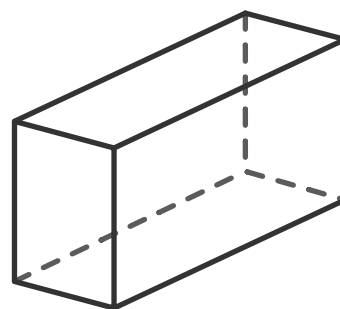

Properties of 3D shapes

cube

cone

cuboid

1. Which 3D shape has a flat face that is a circle?

2. Name the 3D shape with six faces that are all equal size.

3. How many vertices does a cube have?

4. What 2D shape forms the faces of the cube?

5. How many edges does a cuboid have?

6. How many faces does a cuboid have?

circle

triangle

square

rectangle

pentagon
