Measure the **length** of  
each object using snap cubes

| Object to be measured                                                                         | How many snap cubes long? |
|-----------------------------------------------------------------------------------------------|---------------------------|
|  paintbrush  |                           |
|  metre stick |                           |
|  book       |                           |
|  pencil    |                           |
|  scissors  |                           |
|  your foot |                           |
| Find an object of your own to measure                                                         |                           |
